13. Loop Presentation by Dr. Juliette Sterkens who is an Audiologist from Oshkosh. She was introduced by Lion Wendy Hartmann. Dr. Sterkens mission is to show how hearing improves a person's life and personality. There was a show of hands of those that have hearing aids. Hearing loss is very common. Hearing aids do help, however technology has advanced. Hearing aids have a range of 10-12 feet. The hearing loop is a system that a room is wired and has a microphone and PA system; you could call it the WIFI for hearing aids. Hearing aids need a T coil to accept the signal and 60% of hearing aids today have that. To equip a room for the hearing loop cost \$ 2500 - \$ 4000. LIONS have a vision to provide this service. How can LIONS help? Hearing loss support groups, provide a room with the hearing loop. Hearing loops can be found at senior centers, churches, auditoriums, and libraries. You can even provide a TV room with the loop for someone hard of hearing. Lions Camp currently has a bid to get a hearing loop installed, approximate cost \$ 6000 - \$ 8000. Let's work to get that done!

Technology now has come a long way and brought the talking GPS, the Trekker Breeze and has now advance past the Trekker to be quicker and more efficient. How can LIONS help?? We should familiarize ourselves with all of the Lions programs and our representative, find potential people and make donations.
